Canada's Premier Garage Door Builder

Carriage Series Stain Grade Doors

In a world full of look alike high production building materials Carriage Series custom garage doors shine through. Tastefully designed, and masterfully hand crafted, our garage doors are built to compliment the architecture of your new home. Using only the finest available materials we construct timeless creations that offer beauty and security for years to come.

Western Red Cedar, vertical grain Douglas Fir, African Mahogany and other quality woods are available to achieve that perfect look. Simply apply the clear coat, stain, or paint finish of your choice to bring out the natural beauty. Our doors are fully insulated and the interior surface is factory prime painted. Our time proven "laid up" construction means a totally sag free sectional door for smooth and quiet operation at the touch of a button. Choose from our extensive standard models or have us design a one of a kind door to perfectly suit your new home.

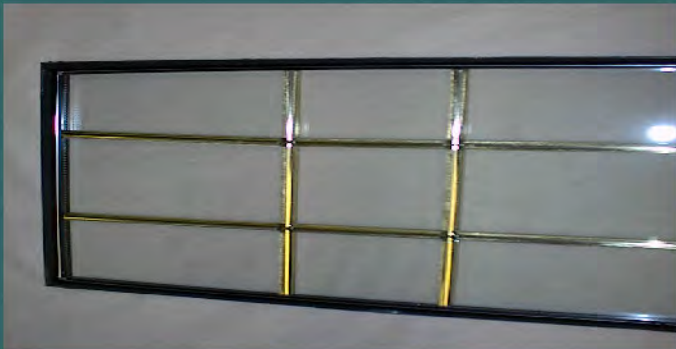

We ship our doors anywhere in North America and further if you so desire. Our packaging system is designed to protect your investment so it arrives at your building site in perfect condition. We include all the required hardware and a complete weather strip package so your new doors are ready to install. Carriage Series garage doors are designed to operate with standard high quality garage door operators for your convenience.

A Touch Of Glass

Standard

3mil clear glass with removable wood grilles set behind the glass. Offers a divided lite look without the high cost. Grilles are constructed of the same wood species as the door cladding. Exterior mounted grilles are also available.

Thermal Sealed Units

Thermal glazing reduces frost build up and provides a higher "R" value. Available with wood grilles or integral aluminum grilles in white, brass, pewter, or black. These stylish painted aluminum grilles never need cleaning and can be configured to match the other windows in the home.

True Divided Lites

The "Cadillac" of glazing choices. Beautiful real wood sashes with individual glass panes. This option offers an authentic look to period style homes and a higher level of detail for that extra "Touch of Class"

Hardware & Weather Strip

Every Carriage Series door is equipped with a complete torsion hardware set. Our hardware is engineered for long life and durability. Commercial quality track & springs, heavy duty hinges, and quiet nylon rollers are just a few of the extra steps we have taken to ensure smooth trouble free service. High quality weather stripping provides a barrier to cold in winter and helps to keep out unmelcome pests year round.

Accessories

Add detail to your Carriage Series door. Our selection of decorative iron exterior hardware adds an authentic look and creates the illusion of true carriage house swing out doors from the past. Of course your doors operate smoothly and quietly at the touch of a button.
