# "Heritage Series" Paint Grade Doors

"Curb appeal". One of the most important features you can build into your new home. Garage doors cover up to 30 percent of the front elevation of a home with a front drive garage. Add the beauty of Heritage Series custom garage doors to your new home and you'll create instant curb appeal that simply can't be achieved with high production garage door products. Our versatile paint grade doors allow you to select from a wide range of standard models or make a bold statement with custom doors designed to blend perfectly with the architectural style of your home.

"Heritage Series" garage doors, "For those who demand the very finest"

Heritage Series paint grade garage doors are constructed with the finest materials and hand assembled with care by a highly skilled team of experienced fabricators.

Our design and management team represent over one hundred years of combined knowledge of the garage door industry. We can quickly answer your questions, and solve any clearance, construction, or installation issues you may have.

Our fast growing network of professional installing dealers and distributors now reaches coast to coast across Canada and the United States. Visit our web site for a comprehensive list of authorized dealers in your area.

Heritage Series doors are incredibly strong and durable. Ladder frame core construction, Marine grade plywood skins, and a fully insulated cavity form the business end of our product. High quality kiln dried Hemlock, or Smartboard trim create the beautiful exterior design. All paint grade doors are available with an optional tongue and groove Hemlock overlay to offer that extra detail and durability that you desire.

All door panels are given a factory applied coat of high solids latex primer to help prepare them for the finish paint treatment of your choice.

A highly developed packaging system ensures that your new garage doors reach their destination in perfect condition, ready to be installed in your new home.

Equal Door Industries works only with trusted and professional freight carriers. We are able to ship our product North America wide and further if you so choose. Our doors are shipped as complete packages containing every thing you need for a complete installation.

We carry the highest quality garage door operators available to smoothly and quietly open and close your doors for years to come. Your authorized Heritage Series door dealer can help you to determine your garage door operator requirements.

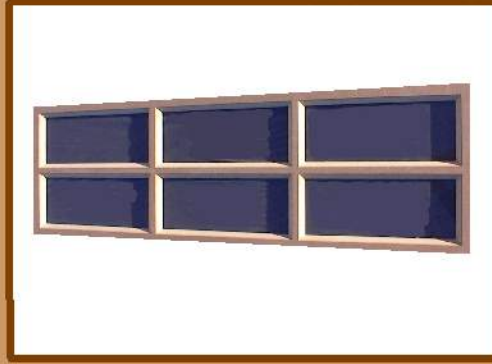

# A Touch Of Glass

*Standard*

3mil clear single pane glass with removable wood grille set behind the glass. Offers a divided lite look without the high cost Thermal sealed unit option is available with this glazing choice.

*Simulated Divided Lite*

High quality, computer router cut wood composite is adhered to both the interior and exterior of the glass for an authentic look. Prime paint is factory applied. Thermal sealed unit option is available with this glazing choice.

*True Divided Lite*

The "Cadillac" of glazing. Beautiful real wood sashes with individual panes. This is a great choice for architectural detail, authentic reproduction, or just for that extra touch of class.

"Heritage Series" garage doors are available with a wide range of glazing options. Our standard clear glass with wood grilles add an extra touch of class to your new door, while allowing light into your garage. Simulated divided lites are mounted both externally and internally for extra detail. Thermal pane sealed units are available for all of our glazing choices. For the traditionalist, our true divided lite glazing option offers authentic individual window panes set in beautiful wood sashes. This option is the perfect choice for period style homes, or simply those who demand the very finest.

## *Hardware*

Every Heritage Series garage door comes equipped with a complete torsion hardware set. Our hardware is engineered for long life and durability. Commercial quality track and springs, heavy duty hinges, and quiet nylon rollers are just a few of the extra steps we have taken to ensure smooth, trouble free service. We can supply special hardware for low headroom, high lift or pitched roof applications.

## *Weather Strip*

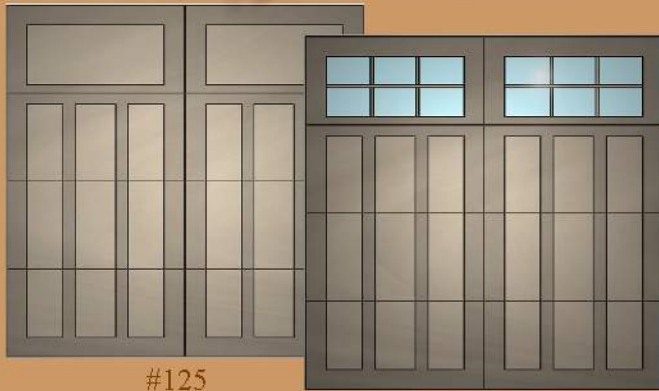

High quality wood and vinyl exterior trim weather strip and a durable two piece bottom section weather strip is included in every package. These are designed to keep the warmth in and keep cold, dirt, and unwanted pests out.

## *Accessories*

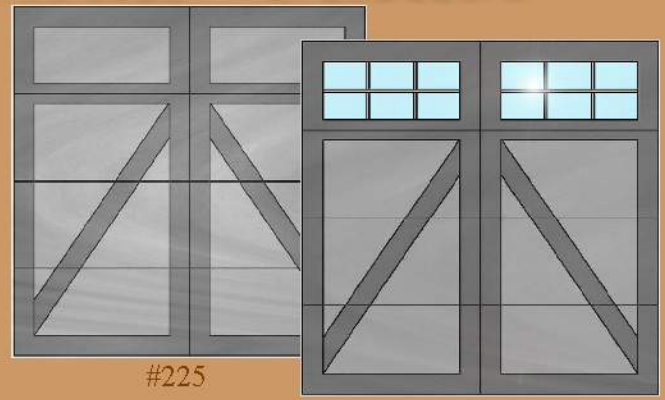

Add detail to your Heritage Series garage doors. Our decorative exterior hardware adds an authentic look, and create the illusion of true Carriage House swinging doors. Of course your doors operate smoothly and quietly at the touch of a button.
