

“Estate Series” (classic panel doors) Maintenance and Warranty Information

Finishing

Our “Carriage Series” custom wood garage doors are constructed using only the finest materials. Every effort has been made to ensure long life and satisfactory operation. The base door panels have been treated with a proven, high solids, latex based preservative primer. The exterior trim is supplied unfinished.

It is very important that all surfaces be treated immediately upon delivery. The interior surface and the edges of the panels have been factory prime painted. Apply two coats of high quality exterior oil or latex paint to these surfaces. The exterior may be painted, stained, or clear coat finished. Apply the finish following the product manufacturers written instructions. Use only exterior grade finishes and apply at least two coats of the product unless otherwise instructed.

Maintenance

Inspect the exterior surface of your garage door at regular intervals to insure that the paint or stain surface is intact and in good condition. If the paint or stain surface shows signs of peeling or fading, lightly sand the panels to form a good bonding surface, and repaint or re stain with a high quality exterior product. Cleaning of the exterior should be done with a damp cloth only. It is not recommended that you spray water under pressure directly at the door surface as this may lead to infiltration and damage. Hardware components should be inspected for proper lubrication and wear. We recommend that you have your garage door inspected by a professional garage door technician

Once per year. Garage door hardware components are under tension and pose a danger to untrained personal. Consult the original installing dealer for professional service and maintenance.

Warranty

Equal Door Industries warrants all supplied components to be free from defect for a period of one year from the purchase date. Any part or parts deemed to be defective will be repaired or replaced at the discretion of Equal Door Industries. Freight and field labor charges are excluded. Failure to adhere to the finishing instructions may void the warranty on the door panels.
